

Beers.Lambert Contemporary Art believes that through emergent artists, the current paths and ideas in progressive contemporary art might be explored, exciting new trends disclosed and truths revealed. Beers.Lambert collaborates with artists from around the world whose practice speaks to a diverse array of thematic, aesthetic, and political concepts, each of whom explore unique and experimental approaches to contemporary art through concept, idea, and medium. It is our desire to exhibit and celebrate some of the very best emergent art from around the world.

Beers.Lambert is an independent gallery resource, and curatorial and consulting initiative co-founded in Vancouver, Canada in 2008 by Kurt Beers and Paul Lambert, with the intention of supporting and advancing the careers of exceptionally talented aspiring artists.
