Profile:

I believe I am an open-minded hard working individual always keen on learning new skills and improve myself.

My aim is to work in photography, it's my life passion and it has been the subject of my academic years of studies. I have been working in France for few consecutive summer seasons as a photographer on the beach.

This experience made me grow personally and professionally improving my communication and sales skills as I had to find potential customers interested on having pictures taken by me on the spot or by appointment for them to go and buy from a central photo workshop after I carefully selected and retouched by Photoshop or Lightroom.

I moved to London about a year ago to improve my English and work as I believe is a city full of opportunity so I hope one day to be successful in my beloved field.

I worked 5 months in a café shop in Cover Garden, NY DELI ,then 6 months in Wagamama kitchen in Knightsbridge and then Soho, both very positive experiences.

I enjoy to work in fast paced places and to be part of a team. I am a very reliable person extremely passionate about everything I do.

Punctuality and time managing are my strength.

I am confident that I can be challenged to the maximum, in order to achieve great results.

Experience
